Barrel Collection

WOOD GRAIN FINISHES

WHEAT

Inspired by the pale tones of new, uncharred barrels, where the wood is still clean, light, and just beginning its aging story.

BROWN ALE

Inspired by barrels that have been toasted and reused, where heat, time, and absorption deepen the wood's color and character.

WILD CHERRY

Echoes the finishing note of a well-crafted drink, with sweetness, depth, and rich color that enhance the overall experience.

BOURBON

Inspired by the rich tones developed as bourbon ages in new, charred oak barrels.

MERLOT

Draws from oak-aged red wines, where time in the barrel deepens color and warmth.

WHITE OAK

Bourbon barrels are legally required to be made from American White Oak, valued for its tight grain and light, natural appearance.

WEATHERED BARREL

Inspired by the gray patina that develops as barrels age outdoors through sun, moisture, and time.

Colors are representative of colors offered and are not meant for matching purposes.
Due to the unique nature of the product, color may vary from batch to batch.
